

Why Choose

TEMPLANT
Rental Power

Service & Maintenance

Weekly Servicing & Inspections

Regular, scheduled maintenance ensures your generator runs smoothly, minimising downtime and maximising performance.

500-Hour Servicing

Comprehensive check-ups after 500 operational hours, ensuring peak efficiency and longevity of the equipment.

Real-Time Fuel & AdBlue Monitoring

Never worry about running out of fuel or AdBlue. Our advanced monitoring system keeps track of levels, ensuring refills are timely and stress-free.

Service Level Agreement (SLA)

24/7 Emergency Support

No matter the hour, our team is ready to respond and get you back up and running, fast.

Guaranteed Response Times

Our SLA commits to rapid response times to resolve any issues, keeping your operations on track.

Preventative Maintenance

With proactive inspections and servicing, we prevent issues before they arise, reducing the risk of breakdowns.
