

Pioneering Greener Energy Solutions

Templant is proud to be the first generator company in the UK to partner with SulNOx, a Greentech company which specialises in providing responsible solutions towards decarbonisation of liquid hydrocarbon fuels. A patented fuel additive to reduce the production of harmful, environmentally damaging emissions whilst also offering significant cost savings. With our dedicated internal Carbon Cut Commitment policy, we are driving innovation in the industry, leading the way towards a more sustainable future.

In stock today—take a step towards greener energy solutions!

Fuel & Emission Savings

Fuel Savings: c.14.5%
ROI: c.1600%

CO2 reduction > 26%
Particulate emission reductions > 96%

-  Costs under 2p per litre when combined with fuel
-  Save up to 25p a litre of fuel
-  Reduced fuel consumption
-  Significantly Reduce Emissions
-  1:2000 SulNOx[®]Eco to Diesel Ratio

SulNOx[®]Eco[™] enhances Performance, Efficiency, and Reliability

Generator Trial Results

 Greenhouse Gas & Particulate Matter Reductions

Emission	Baseline	1 Hr	1 Hr Change	5 weeks	5 weeks Change
CO ₂	5.59 % v/v	5.84 % v/v	↑ +4.5%	4.1 % v/v	↓ -26.7%
NO _x	456 mg/m ₃	437 mg/m ₃	↓ -4.2%	390 mg/m ₃	↓ -14.5%
SO _x	50 mg/m ₃	2.29 mg/m ₃	↓ -95.4%	18 mg/m ₃	↓ -64.0%
PM 2.5	7.44 mg/m ₃	2.94 mg/m ₃	↓ -60.5%	0.17 mg/m ₃	↓ -97.7%
PM 10	7.59 mg/m ₃	3.05 mg/m ₃	↓ -59.8%	0.29 mg/m ₃	↓ -96.2%
